OUR STORY

The journey of Phoenix begins in **1976**, when an advertisement in the newspaper showcased the sale of a plastic factory. The dying embers of the machinery piqued an interest in **Mr Omar**. He took his son to see the injection molding factory, something neither had ever seen before. Mr. Omar's vision always led him **toward the new and exciting**. After playfully bidding, they acquired not just a factory, but a lifelong business and **passion**. As the machines got refurbished, and other challenges were tackled, a vision for **a new company emerged**. The once dilapidated factory became a household brand, known and adored by every Sri Lankan.

Like a **phoenix rising** from its ashes, the company became a hotspot for **entrepreneurial vision**. It made many valuable partnerships along the way, which have been key contributors to the company's rise today. With over **40 years** of industrial **experience**, Phoenix has expanded exponentially.

For the Omar family, Phoenix has been a guiding light; a springboard for many future successes, ventures and adventures. Phoenix is about resurgence and resilience.

Some of our most special moments, happen in those quiet and contemplative moments surrounding a table. Announcements, celebrations, heartbreaks, milestones, whatever it is, let our tables be there for you. We create tables that blend into every home and transform themselves for all your needs.
