OUR STORY

The journey of Phoenix begins in **1976**, when an advertisement in the newspaper showcased the sale of a plastic factory. The dying embers of the machinery piqued an interest in Mr Omar. He took his son to see the injection molding factory, something neither had ever seen before. Mr. Omar's vision always led him toward the new and exciting. After playfully bidding, they acquired not just a factory, but a lifelong business and passion.

As the machines got refurbished, and other challenges were tackled, a vision for a new company emerged. The once dilapidated factory became a household brand, known and adored by every Sri Lankan.

Like a phoenix rising from its ashes, the company became a hotspot for entrepreneurial vision. It made many valuable partnerships along the way, which have been key contributors to the company's rise today. With over 40 years of industrial experience, Phoenix has expanded exponentially.

For the Omar family, Phoenix has been a guiding light; a springboard for many future successes, ventures and adventures. Phoenix is about resurgence and resilience.

DESIGNED

FOR LIFE

Phoenix lives for you

Our purpose is to make every moment of your life practical, smart, seamless and beautiful. We imagine, create and manufacture products envisioning what can give you the most trust, comfort and support - everything you would look for in a life partner! Look around, and you'll see we're right there with you. We are a part of your life - we design for life.

CONTENT

WASTE MANAGEMENT

In the age of climate change, disposing off waste is a critical responsibility. We create waste management solutions with empathy and respect for earth above all else. The relationship between human and nature is built on trust. Our waste segregation solutions bring you one step closer toward building this relationship.

Our bins blend into every home and offer a sincere tryst with nature.

Our clothes embark on a journey with every laundry cycle – going from worn, to washed, to being put away for the next use. The distance between each task can become hassle-free through our ventilated laundry baskets. Every small detail adds to the ease of doing chores. We believe that no task should be painful or dreaded. A burst of color can ignite energy into the smallest errand.

KITCHEN

The vibrancy of a kitchen comes from plates full of food and a hall full of chatter. The warmth of a dinner party, with a simmering pot on the stove, and laughter all around shouldn't end with chaos. A well-organized kitchen employs practical and comfortable solutions. That's why we provide remedies for packing, storing, arranging, and even preserving food. No one likes dampening the mood with a messy clean-up process. Let the aroma of food linger.

GARDEN

In the midst of sun kissed skies and birdsong, why not equip yourself with a handy tool that can facilitate your labor? We know that gardens are like a canvas; a good solution only makes your patience run longer. As you tend to your garden, letting yourself be guided through the rhythm of nature, let us thrive by nurturing your passion.

KIDS

Children have the ability to find wonder in everything. We create products that not only lengthen their ability to imagine, but also make learning a joyful experience. You will never have to separate learning from play-time again. If children can see creativity in everything, why not raise children in a creative way?
