OUR STORY

The journey of Phoenix begins in **1976**, when an advertisement in the newspaper showcased the sale of a plastic factory. The dying embers of the machinery piqued an interest in **Mr Omar**. He took his son to see the injection molding factory, something neither had ever seen before. Mr. Omar's vision always led him **toward the new and exciting**. After playfully bidding, they acquired not just a factory, but a lifelong business and **passion**. As the machines got refurbished, and other challenges were tackled, a vision for **a new company emerged**. The once dilapidated factory became a household brand, known and adored by every Sri Lankan.

Like a **phoenix rising** from its ashes, the company became a hotspot for **entrepreneurial vision**. It made many valuable partnerships along the way, which have been key contributors to the company's rise today. With over **40 years** of industrial **experience**, Phoenix has expanded exponentially.

For the Omar family, Phoenix has been a guiding light; a springboard for many future successes, ventures and adventures. Phoenix is about resurgence and resilience.

FOR DESIGNED LIFE

Phoenix lives for you.

Our **purpose** is to make every moment of your life **practical, smart, seamless** and **beautiful**. We imagine, create and manufacture **products** envisioning what can give you the **most trust, comfort** and **support** - everything you would look for in a life partner!

Look around, and you'll see we're right there with you. We are a part of your life - we design for life.

LAUNDRY

Our clothes embark on a journey with every laundry cycle – going from worn, to washed, to being put away for the next use. The distance between each task can become hassle-free through our ventilated laundry baskets. Every small detail adds to the ease of doing chores. We believe that no task should be painful or dreaded. A burst of color can ignite energy into the smallest errand.

KITCHEN

The vibrancy of a kitchen comes from plates full of food and a hall full of chatter. The warmth of a dinner party, with a simmering pot on the stove, and laughter all around shouldn't end with chaos. A well-organized kitchen employs practical and comfortable solutions. That's why we provide remedies for packing, storing, arranging, and even preserving food. No one likes dampening the mood with a messy clean-up process. Let the aroma of food linger.

KIDS

Children have the ability to find wonder in everything. We create products that not only lengthen their ability to imagine, but also make learning a joyful experience. You will never have to separate learning from play-time again. If children can see creativity in everything, why not raise children in a creative way?
